name and completed its organization ut Jackson, Mich., on July 6, 1854. Whatever faults it has had, what ever mistakes it has made, it still has done more for the United States than any other political party ever did for any other country.

The supporter of liberty, it over threw slavery. The party of prosper 'ty, it killed the impossible doctrine of American Free Trade. The champles of national honesty, it put an end to BRYAN's flat money scheme.

This party of Lancoln, McKinley and Roosevelt has another great piece of work cut out for it: the preservation of the sovereignty of the United States of America.

With the assistance of old fashioned Americans of all parties who do not intend that this country shall be the tall to anybody's kife that job can be handsomely done.
